SUBJECT INDEX

Anionic chelate ligands
  Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Carbonylation
  Transition metals in organic synthesis, highlights for the year 1997 159
Clusters
  Ruthenium cluster–[2.2]paracyclophane complexes 59
Dinuclear compounds
  Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43
Formamidinate
  Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43
LFER
  Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43
Ligand field effects
  Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91
Metallacycles
  Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Metal–oxygen bond
  Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91
Nucleophilic additions
  Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Organic synthesis
  Transition metals in organic synthesis, highlights for the year 1997 159

Organometallic metal cluster compound
Annual survey of organometallic metal cluster chemistry for the year 1997 271
Oxidic solids
Second-sphere ligand field effects on oxygen ligator atoms and experimental evidence—the transition metal–oxygen bond in oxidic solids 91
[2.2]Paracyclophane
Ruthenium cluster–[2.2]paracyclophane complexes 59
Pseudohalides
Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Pyrazole type ligands
Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Reaction mechanisms
Annual survey of organometallic metal cluster chemistry for the year 1997 271
Ruthenium
Ruthenium cluster–[2.2]paracyclophane complexes 59
Structural characterization
Annual survey of organometallic metal cluster chemistry for the year 1997 271
Substituent effects
Substituent effects in dinuclear paddlewheel compounds: electrochemical and spectroscopic investigations 43
Transition metals
Nucleophilic additions to pseudohalides in the coordination sphere of transition metal ions and coligand isomerism 17
Transition metals in organic synthesis, highlights for the year 1997 159
